To all Members of Parliament,

February 14, 2008

By now, you will have received a letter and petition from the Victoria and Vancouver 9/11 Truth societies calling for a new investigation into the events of September 11, 2001. Also, you will have received an informative video entitled "9/11 Mysteries" which demonstrates, convincingly, that the Twin Towers and Building 7 were all brought down by pre-positioned explosives that day. The implication of this is that the official story of 9/11, as put forth by the Bush administration is, at least, in error, if not *a deliberate lie*. But will anyone be brave enough to speak up and actually look into this matter by questioning the legitimacy of the Bush administration's account of what happened and the resultant "war on terror" which has proven to be so destructive to Canada?

That is why I am writing to you. Once in a while, it takes someone courageous enough, like a concerned Member of Parliament, to stand up in Question Period and ask a difficult question such as, "Why has the current government taken the official story of 9/11 as the gospel truth, when there are so many inconsistencies and when there is so much at stake in the outcome?"

With the former Italian President, Francesco Cossiga, recently saying it is well known within the intelligence community that 9/11 was orchestrated by the CIA, and with the Prime Minister of Japan and his cabinet being questioned by the opposition party on January 11, 2008 about insider trading and the implosion of Building 7, it proves that there is a growing worldwide demand to re-open 9/11. If members of the Japanese and the Italian governments can openly debate such an important issue, then why can't our Canadian government? After all, 24 of our citizens were murdered that day. Don't we owe them something?!

Enclosed, with this letter, you will find MORE evidence of the multiple inconsistencies that plague the official story of 9/11 as put forth by the Bush administration and its supporters. Is it fair to the victims of this terrible crime for us to remain silent when there is so much evidence to show that the official story is not only unbelievable but scientifically impossible? We need a new, entirely independent, investigation into what really happened on 9/11.

I ask each of you to join us in exercising the influence and weight of your office to bring about this new investigation.

Yours truly,

*Ian Woods*

To all Members of Parliament,

May 2008

This is the second of two packages you will be receiving from us here at Global Outlook.

85 Canadians from across our great nation donated over \$6,000 to get this package to you. AND ... There are thousands that stand behind us, ready, willing and able to offer their support to our cause for 9/11 Truth!

This package is not only being sent to you, but also to all Canadian Senators.

The reason why the first package is slightly dated (being February 2008) is that we had a very hard time trying to figure out how to mail it to you without paying \$2,464.00 in mailing costs. (Didn't sending mail through Canada Post to MPs used to be free?)

As a result of the overwhelmingly positive response to our fund-raising drive to the "Educate our MPs" project, we are able to include, herein, a copy of "9/11: The Greatest Crime of All Time - The Best of Global Outlook, Volume 2" which is the second in the series of books we have published. Together they prove, beyond a shadow of a doubt, that Osama bin Laden was a patsie.

So now you know, or should know ... after reading these two books and watching Zeitgeist (the most popular internet movie) that there is enough evidence to prove our case: 9/11 WAS AN INSIDE JOB!

I repeat from the other letter: "Is it fair to the victims of this terrible crime for us to remain silent when there is so much evidence to show that the official story is not only unbelievable, but scientifically impossible?" Just GOOGLE: **BUILDING 7** and see for yourself. How can a 47-storey steel skyscraper fall to its knees in 6.6 seconds at 5:20 pm, on 9/11, without some huge explosives being used!!! Could Osama bin Laden have planted all those explosives in that highly secure building??? ... **OBVIOUSLY NOT**. So we need a **NEW** investigation into what **REALLY** happened on 9/11.

I ask each of you to join us in exercising the influence and weight of your office to bring about this new investigation. How can we support the US's "War on Terror" if we don't know **FOR SURE** who was responsible for 9/11? If 24 Canadians were murdered in downtown Toronto on 9/11, wouldn't you want a proper investigation to find out who did it? Well we never got one down south of the border, or here!

Sincerely,

*Ian Woods*

---

To all Canadian Senators,

May 2008

Did you know that Kean and Hamilton, the two chairmen of the 9/11 Commission, in interviews about their new book, "Without Precedent" say that NORAD lied to them about what happened on 9/11 and that the CIA were guilty of obstructing justice by withholding important testimony from the Commission? So, if the official investigation into what happened was compromised, why hasn't there been a new investigation in 9/11? Because hardly any politicians have been calling out for a new one!

That is why I am writing to you. Once in a while, it takes someone courageous enough to stand up and ask some difficult questions such as, "Why has the current government taken the official story of 9/11 as the gospel truth, when there are so many inconsistencies in the Bush administration's version of events and when there is so much at stake in the outcome?"

Recently one politician did speak out. On January 10, 2008, Yukihisa Fujita, a Japanese MP, challenged Bush's request for assistance from the Japanese to supply the US military effort in Afghanistan, by raising questions about 9/11. He asked the Prime Minister how Japan could support the "War on Terror" if the Japanese government hadn't done their own investigation into who was responsible for the murder of 26 of its own citizens on 9/11. Should they just take the Bush administration's word for it? Didn't Bush and company lie about WMDs in Iraq? So, why wouldn't they have lied about 9/11?

Later, on February 26, 2008, Guilietto Chiesa, a journalist and member of the European Parliament, invited colleagues and the press to attend a screening of his new *Zero*, an investigation into who was really behind the deaths of four of their citizens on 9/11, and it wasn't Osama bin Laden!

Well, if you aren't aware of the facts, it's hard to decide if a new investigation is needed or not. So that's why we have decided to send you some very good documentation which will help you decide:

- 9/11: Solving the Greatest Crime of All Time - The Best of Global Outlook, Volume 1
- 9/11: The Greatest Crime of All Time - The Best of Global Outlook, Volume 2
- Modus Operandi 9/11 - a novel about 9/11 by Hal Sisson, QC
- Zeitgeist - The Movie, one of the most popular internet movies ever produced.

After viewing this material, I'm sure you will agree that something needs to be done ... and right away! I ask each of you to join us by exercising the influence and weight of your office to call for a new investigation. Is it fair to the victims of this terrible crime for us to remain silent when there is so much evidence to show that the official story is not only unbelievable, but scientifically impossible?

Sincerely,

*Ian Woods*
